## Six Upper County School Districts Effect Merger; L. V. Stock Is Principal

The upper Adams county joint school system came into existence Thursday evening, at the Biglerville high school.

The jointure was effected at 9:10 o'clock when the last signature of the 30 members of the six school districts involved was placed on the last of ten copies of the articles of agreement between the various boards.

School districts in the jointure are: Arendtsville, Biglerville, Biglerville, Butler township, Menallen township and Tyrone township.

The merged boards named the following officers: Dr. J. L. Boyer, Arendtsville, president; Elliott Taylor, Butler township, vice president; Willis H. Lady, Biglerville, secretary and Lloyd W. Kleinfelter, Biglerville, treasurer.

Named to the executive committee were: Rowe M. Martin and Mr. Kleinfelter from Biglerville; Doctor Boyer and Lawrence E. Myers, Arendtsville; J. F. Kanagy and Mr. Taylor, Butler township; George Schriver and Harry Lerew, Bendersville; Harold E. Taylor and Robert C. Lott, Menallen township and Hiram Rex and Hilbert E. Hoffman, Tyrone township.

The executive committee will meet monthly and will conduct most of the work of the jointure board. It was decided Thursday night. The entire joint board will meet once or twice a year, after the system is underway, to consider such things as teachers' salaries, appointments of teachers and capital outlay.

With its own organization completed, the board, by unanimous ballot vote, elected Leslie V. Stock, supervising principal of the Biglerville schools as supervising principal for the jointure. The board set Stock's salary at \$4,500, a slight increase over the salary paid by (Please Turn to Page 4)

## CONEWAGO WILL CLOSE SCHOOL; LOSE TEACHER

Conewago township revamped its school system Thursday evening at the regular meeting of the board at the Sand Hill school house, decided to close one school, released one teacher and reassigned its teachers for the coming year.

The school to be closed is Locust Grove, at which one room was open during the past school year. The two-room building will be sold by the board as soon as advertisements can be prepared.

In its rearrangements of the township school system for the coming year the board decided to establish a program of one grade per teacher for the future. Several years ago the board changed its one-room school system from eight grades per teacher to four per teacher. Last year the number was dropped to two and in some cases three grades per teacher.

**Assign Teachers**  
Miss Gertrude H. Orndorff and Mrs. Catherine T. Smith were named as teachers of the first and second grades at the Midway school. Under the plan adopted Thursday night the teacher who instructs the first graders this year will teach second grade next year while the second grade teacher next year will take over the incoming first grade in 1948. In that way, it was pointed out, the same teacher will have the beginners for a two-year period and will be able to provide a two-year program.

Mrs. Ruth A. Humbert and Miss Minnie V. Orndorff were named to teach the third and fourth grades at Mt. Pleasant school and Mrs. Ruth L. Kump and Principal John H. Riley will teach the fifth through eighth grades at Sand Hill.

While four grades will actually be present at Sand Hill, the board decided, the fifth and sixth grades will be handled as one grade and the seventh and eighth will also be combined one grade, with the course of studies alternating each year. In addition the top four grades will be (Please Turn to Page Two)

## Farm Prices Continue High Here; Peak Reached In '45

Farm prices in Adams county continued high during the first quarter of 1947, gaining over 1946 prices, but were still lower than the peak reached in the fourth quarter of 1945, charts kept by Daniel A. Paddock, farm representative for the First National bank here, disclosed today.

Based on the prices paid for 67 farms for which transfers were recorded in the first three months of this year, the average price paid for farms in 1947 is \$81.72 per acre. **Prices Vary With Finance Plan**

Representatives of Gettysburg restaurants met Thursday night at police headquarters and reached an agreement whereby the restaurant owners furnish 600 sandwiches for the Junior Police dance which will climax the events of June 19, when the youngsters will "take over" all borough officers for the day.

Four restaurants, The Plaza, F and T, DeLuxe and the Marine, were represented at Thursday night's meeting, but others have agreed, Albert L. Wolford, police department advisor to the junior club said, to participate and to share in the expense.

George Lazos heads the committee of restaurant owners as chairman, and will have charge of the purchase of the sandwich materials, Wolford said. The sandwiches will be made up in the kitchen of the Moose home, and the Moose will furnish the butter, he added.

**Dance Refreshments**

Wolford said that Hennig's Bakery will provide 400 cookies, and 250 more will be furnished by Baumgardner's bakery of Taneytown. Others desiring to cooperate are asked to contact Wolford.

The Junior Police dance will be held the night of June 19 in the Hotel Gettysburg annex, following a day in which Junior Police club members will act as burgess, council members, police and firemen, and hold other borough offices, under the supervision of the regular officials.

## Here And There

News Collected At Random

**F-Day, (Father's Day)** will be observed nationally on Sunday, June 15. Traditionally, Old Dad will receive neckties, shirts, socks, shaving lotions, cards, etc. Surprisingly enough, Father's Day was originated by a mother. In 1909 Mrs. John Bruce Dodd, Spokane, Wash., thought of the idea as a tribute to her own father, William Smart, a Civil War veteran who raised his six children after their mother's death.

**Mrs. Dodd wrote to the president of the Spokane Ministers' Association** suggesting that on the third Sunday in June, sermons be given throughout the city stressing the importance of a father's place in the home. When the idea was submitted to the association members it was unanimously approved, and Father's Day was first observed in Spokane in 1910.

## COMMISSIONERS HOPE FOR EARLY JAIL DECISION

The Adams county commissioners will meet Saturday morning to continue their discussions on what to do with the prisoners in the local jail, hopeful of reaching a decision.

Confronted with the question of whether to remodel the present county prison, or build a new jail, the commissioners must determine what disposition shall be made with the prisoners during the remodeling or the construction of the new building.

Thursday afternoon the commissioners visited the Dauphin county jail to ascertain if local prisoners could be housed there during the present emergency. What their findings were was not divulged today.

Because the responsibility for safeguarding local prisoners rests on the county, according to state officials, the commissioners are planning to move the jail inmates to quarters in other county prisons until a new jail can be built or the old remodeled. The commissioners have not as yet reached that decision.

Next step for the commissioners will be to present their findings to the Adams county court for approval. The Department of Welfare will also have to approve their decision.

## MOOSE OPPOSE SCHOOL BOARD PLAY PROGRAM

The Gettysburg Moose Thursday night at the conclusion of a four-hour session turned down a suggestion that it donate \$500 to secure a full time recreation director for the borough and establish a year-around program.

William "Johnny" Knox, of the committee seeking to put through the program and who spent more than an hour outlining the idea to the Moose, said today that the members seemed to prefer a previous idea of establishing a boys' and girls' club and public park here.

Knox added that members argued against the high cost of securing a professional recreational director, and the idea of having the school board as one of the backers of the movement, and expressed fears that the program would, like a previous playground, prove a "fly-by-night scheme."

The proposal as presented is to obtain a full-time "director of adult recreation" who would be hired by the school board and would be paid \$2 an hour for his work. Under the program the state would provide 76 per cent reimbursement for the money paid the teacher, Knox explained.

The matter never came to a vote, with no second being given to the motion that \$500 be donated. After that the entire time was devoted to discussion until the motion was withdrawn.

# FIVE DIVISIONS HIT NORMANDY 3 YEARS AGO

Cherbourg, June 6 (AP)—Driving through the checkerboard pattern of hedgerows in Normandy on this third anniversary of D-Day, the breathtaking sight of endless rows of white crosses beneath the apple trees impresses one more than anything else.

When elements of five American divisions landed in Normandy—two by air and three by sea—on June 6, 1944, they opened one of the greatest, if costliest, military campaigns in American history.

**Hedgerows And Hard Luck**

Wresting the Cherbourg peninsula from the German forces that had vanquished Europe gave the Allies a major seaport and enough space to load the continent with a striking force that was powerful enough to sweep 250 miles to Paris within one month after the break-through at St. Lo.

But the men who secured the Cherbourg peninsula had to do it the hard way, and nearly 90,000 of them paid with their blood. There are nine U. S. military cemeteries in Normandy where 28,462 white crosses mark the sleeping places of American soldiers dead.

Hedgerow fighting and the hard luck the paratroopers ran into on D-Day are generally accepted as the reason for this overwhelming figure.

**Lists Casualty Cause**

The Nazi machine gunner, lying in wait behind the hedgerows, and the Boche, who turned his ack-ack fire into the clouds of white silk that were American paratroopers, took a toll of approximately five to one.

There are only about 5,000 Germans buried in Normandy—about 3,000 at La Coudre and another 2,000 at St. Mere Eglise.

Maj. Robert Crissom, 26-year-old regular army officer from Birmingham, Ala., who survived the first wave at Utah Beach and the Normandy campaign, lists three reasons for the heavy toll in Normandy: (1) Hedgerows, (2) breaks in the hedgerows and (3) shells exploding in the trees.

Miss Mary June Myers, daughter of Mr. and Mrs. Charles H. Myers, Sr., 261 Park street, Waynesboro, became the bride of Buford P. Mentzer, Jr., son of Mr. and Mrs. P. F. Mentzer, Sr., of Orrtanna R. 2, in a quiet wedding Wednesday evening at 6 o'clock in the Waynesboro Lutheran church.

Only members of the immediate family were in attendance when the Rev. Dr. B. Clinton Ritz officiated at the double ring ceremony. Palm and peonies decorated the altar.

The couple was unattended. After the wedding, the couple left for a wedding trip to Pittsburgh.

After graduating from the Waynesboro high school in 1945, the bride was employed as a secretary at Frick company.

# U. S. THREATENS APPEAL TO U. N. OVER HUNGARY

BY JOHN M. HIGHTOWER

Washington, June 6 (AP)—With President Truman's approval the state department has drafted a hotly-worded note to Russia, accusing the Soviets of illegal interference in Hungarian affairs. The note threatens an appeal to the United Nations.

This was learned from American diplomatic officials who said that the note is one thing the President presumably had in mind when he asserted yesterday that the United States would not stand idly by in Hungary. The note was said to make these four principal points:

1. Directly charges Soviet authorities in Hungary with participation in the ousting of Premier Ferenc Nagy and other cabinet officers—the move by which pro-Soviets began to take over the government—and asserts this is a serious interference in the affairs of Hungary.

2. Charges the Soviets with breaking the terms of the Yalta agreement respecting great power protection and development of political independence in ex-enemy small nations.

3. Proposes a joint American-Soviet-British investigation of the Hungarian situation.

4. Warns that unless satisfaction is forthcoming, beginning with the reply from the Soviet Union, the United States may take the case to the United Nations.

On the latter point, it has not yet been decided at the state department whether it would be better to appeal to the Security Council or the U. N. General Assembly. The council is in session at frequent intervals but Russia has a veto there. The assembly does not meet until September in New York.

**Okayed by Truman**

The note was completed at the state department and approved in substance by President Truman yesterday. The draft has not been formally completed and sent to Moscow because it is still under study by various diplomatic officials.

The threat to take the case to the United Nations evidently reflects two points which officials are known to have considered in planning the exact legal grounds by which the case could be presented and kept in the U. N. are difficult to define. It is in this respect that the charges of Soviet involvement in the ousting of Nagy become of great importance, since these might be made the basis for a broader charge of Russian political aggression against Hungary.

The second point is the belief held by some authorities that the Soviets would prefer not to have the case aired in the United Nations with a consequent loss in prestige and to their moral position in Europe especially. Their reluctance here might be a force—these authorities believe—to persuade the Soviets to take a reasonably friendly attitude in discussing the new situation in Hungary with the United States and Britain.

**FIRE DAMAGES CHURCH**

Linden, Pa., June 6 (AP)—Fire swept through the Linden Presbyterian church and one residence today in this Lycoming county community, causing an estimated damage of approximately \$20,000. The blaze originated in the two-story frame residence of Harry Comick on an undetermined cause and spread to the church, also a frame building. The Rev. F. E. Christian, moderator of the Presbyterian synod at Williamsport, fixed the loss to the church at \$15,000.

## BANKS TO CLOSE

# FACES TREASON CHARGE; TRACED BY ALERT EX-GI

Los Angeles, June 6 (AP)—A young Japanese-American, dramatically trapped by an alert ex-GI prisoner, was held without bail today on treason charges, accused of being a wartime foreman in a Japanese prison camp on Honshu Island.

Trained by the Federal Bureau of Investigation for eight months after he was spotted here by the former soldier, Tomoya Kawakita, 25, a native of Calexico, Calif., was arrested yesterday and immediately arraigned before U. S. Commissioner David B. Head.

Squat, bespectacled Kawakita was ordered held for the Federal grand jury which will consider indictment June 11. He appeared near tears as the commissioner told him that treason is punishable by death.

## Recognized in Store

U. S. Attorney James M. Carter, preparing the government's case against the one-time student, declared Kawakita will face the testimony of "close to 100" former American servicemen who were subjected to "unspeakable indignities" in Oeyama camp on Honshu.

None will be more eager to testify than William L. Bruce of Buena Park, Calif., the ex-soldier who saw Kawakita in a Los Angeles department store last October and said he recognized the Nisei as the foreman known as "Kaw-kida" in the prison camp.

Bruce followed him and jotted down the license number of his car, then reported his discovery to the FBI.

## Cruel Treatment

Richard Hood, FBI chief here, said investigation disclosed that Kawakita obtained a passport in 1939 to go to Japan, to study at Jell university. He returned to the United States August 15, 1946, a year after the war's end, after obtaining a passport in Yokohama on the representation he was a student during the war years, the Federal officer said.

In Washington, FBI Chief J. Edgar Hoover said Kawakita, son of a former Calexico grocer, had, as camp foreman, assigned prisoners to "impossible tasks and cruelly and maliciously mistreated the men under his control."

of the 35th Division with which he served in France as a battery commander in the 129th Field Artillery. He will speak tomorrow night at memorial ceremonies for the division's dead of two world wars.

He told reporters at the airport he will drive from Kansas City to Grandview this afternoon to visit his ailing mother, 94-year old Mrs. Martha Truman. He recently spent several days with her when her condition became critical as a result of complications from a hip fracture.

## Resentment Against U. S. Flares Abroad

Washington, June 6 (AP)—The rising resentment of Europeans against any evidence of American dictation in their affairs has put the United States in a tough spot in trying to promote a new economic recovery program for Europe.

Top American officials, evidently including Secretary of State Marshall, are said to be convinced that before the United States can pour any more billions of dollars into the economically sick continent such a program must be created.

This was described authoritatively today as the reasoning behind Marshall's insistence in a speech at Harvard university yesterday that the Europeans themselves must "draw up a program designed to place Europe on its feet economically."

## Believe Student Was Fatally Poisoned

Lafayette, Ind., June 6 (AP)—Coroner Wayne T. Cox said today "every indication points to poisoning" in the death of Miss Anna Catherine Fox, 21-year-old Purdue university honor student whose body was found yesterday on a railroad embankment. She had been missing since Tuesday night.

"But we can't be sure until there is a laboratory report," Dr. Cox added. He ordered vital organs sent to Dr. R. N. Harger, Indiana university toxicologist for analysis.

Abello was convicted May 17 by an all-male jury which deliberated 11 hours and recommended clemency.

Judge Wallace, in mentioning the jury's recommendation, said: "I would have given him a longer sentence than the minimum the law provides" if the recommendation had not been made.

## No. 1 Hungarian Red Boasts Of His Feat

Budapest, June 6 (AP)—Matyas Rakosi, Hungary's No. 1 Communist and virtual dictator, has told factory workers that his party took over control "before the United States could rub its eyes."

"We were able to solve the crisis before the foreign press, good and bad, was able to intervene," Rakosi said. "Before the United States could rub its eyes, everything was perfectly put over."

"Such a task could only be carried out when democracy is united and is led by the brave and iron-fisted Communist party, conscious of its aims. This is why the feat has been acclaimed by the lovers of democracy all over the world."

"Martin Hall," named in honor of U. S. Senator Edward Martin, former governor of Pennsylvania, was dedicated on Tuesday at the Valley Forge Military Academy, Wayne, Pa. Music for the occasion was furnished, according to newspaper accounts, by the Academy band. The local Memorial Day committee wanted to secure the Academy band for the May 30 exercises here but was informed that the school term was over and that the band members would be at their homes.

The following statement from the International Emergency Food Council is self-explanatory.

"Thanks to patriotic American women, over 600 million pounds of used fats have been added to U. S. supplies of industrial fats since August 1942. These 600 million pounds were vitally important, not only to the United States, but to the entire world.

"Fats and oils, both food fats and industrial fats, are in critically short supply, practically everywhere. Total world production of fats and oils in 1947 will be one-sixth less than in prewar years. But at the same time, there are many more mouths to feed and a tremendous job of reconstruction and rehabilitation to be done.

"In the face of this great world-wide shortage of fats and oils, it is obviously most necessary to conserve every possible pound of fat. American women can make a real contribution to the welfare of their own country and to the recovery of the rest of the world by saving and turning in their used cooking fats," the statement concludes.

skill, before he has smashed small blocks of wood into bits, exploded oranges, grapefruit and potatoes and demonstrated other feats. A similar program is planned here.

Mr. Cox began his career as an expert marksman on his tenth birthday, when his father gave him his first gun. He contends that he is not a "born" shot, and that no one else is, and that good shooting is not difficult to acquire.

"Constant practice will take care of that," he says, and "anyone who will follow the simple fundamentals of shooting will find that they become second nature to him, and he will begin to notice a marked improvement in his shooting."

Concentration, according to Mr. Cox, is a definite "must" for the person who wants to excel in competitive shooting, whether at the traps, on the skeet field or the pistol and rifle ranges.

The program adopted by the board was presented by Principal Riley in connection with a report of the achievements of the system during the past year.

**Grant \$200 Bonus**

With the reduction of the number of rooms in the school system from seven to six the board was forced to release one of its teachers. After calling for a report from Dr. Robert A. Bream, assistant county superintendent of schools, on the ratings given, the various teachers, the board found that all were approximately equal in ratings. As a result the last teacher engaged, Mrs. Gertrude B. Renner, was released. The board praised the services of Mrs. Renner and expressed regret at losing her services.

A \$200 bonus was voted for all of the members of the teaching staff for their services during the past year.

**Praises School System**

The board was told it is operating a "model rural school system" by Doctor Bream. The board had asked the county superintendent's office to report to it on "our failings and our good points" at the meeting which all board members and all teachers attended.

"The Conewago district has fulfilled all of the principles recognized as the basis for a good school system," Bream said. "It has graded its schools, has housed its pupils in comfortable and attractive rooms, has employed competent teachers and paid them more than the minimum. It has provided transportation for its youngsters, musical instruction and nursing services, employed a principal teacher for administrative details and supervisory work and has given generous support to the county library. As a result it has achieved outstanding educational results. The eighth grade examination given recently proves that. All of the 22 children from Conewago who took the test not only passed but made an excellent mark. The average for the 22 was far above the average for the county. Three of the youngsters received 'A' ratings, nine 'B,' seven 'C,' and three 'D.' Of the seven with 'D' markings two were just below the 'C' rating."

The Knox's Store softball team came close to pulling the biggest surprise of the season Thursday evening when it forced the unbeaten State Highway team to rally in the sixth and final inning for three runs before the highwaymen 7-6 in a Community league game on the high school field.

A five-run rally in the last half of the second frame enabled the storemen to hold a 6-4 lead going into the sixth inning. Darkness prevented the playing of the seventh frame.

In the opening game on the high school field the Texas Lunch smothered Evans' store 24-6. Raffensperger, Fissel and Thrush hit home runs for the winners. Sachs and Taylor hurried for the lunchmen.

The scrappy American Legion team put up a good battle all the way before bowing to the Moose 8-3 in the opener on the college field. Five runs in the first inning gave the Moose their margin. Clapper hit a homerun for the winners in the second inning.

Scoring in every inning, the Acme laced the Elks 18-5 in the nightcap on the college field. Little poled a pair of circuit clouts and Shoop had one for the victors.

# Rare Day In June With A's Third High

Cleveland, June 6 (AP)—One of the rarest happenings of a June day had happened today—the Philadelphia Athletics were in third place in the American league.

True they were deadlocked with a pair of other clubs, but it hasn't been since 1933 that the Athletics were so high in the pennant race. The ball club which was virtually a unanimous choice to finish last opens a five-game series with the Cleveland Indians today—and the Indians are one of the teams with which the A's are tied.

The Macks evened their season record at 21-21 yesterday by inflicting a 5-2 reverse on the Chicago White Sox.

# EMMITSBURG TO MEET LEGION 9 HERE SATURDAY

Several new players, secured to bolster the Gettysburg Legion team of the Adams County Baseball league, are expected to see action when the locals meet Emmitsburg here in a loop contest Saturday afternoon at 2:30 o'clock.

Manager "Bud" Knox has announced that Francis Snider, of Harney, will be his starting hurler while another Harney player, John Leister, although an infielder, will probably be given an outfield assignment.

Ray Staley, a student at Dickinson Junior college, Williamsport, will join the team in the near future and may be available on Saturday.

Emmitsburg will also have a bolstered lineup, several players having been secured following completion of their studies at various colleges.

Other games listed in the league Sunday include Benderville at Littlestown, two games; Arendtsville at McSherrystown; Fairfield at New Oxford, and Hanover at Orrtanna.

The Penn-Maryland schedule for Sunday includes McSherrystown at Emmitsburg; Littlestown at Wakefield; Hanover at Harney; Middleburg at Taneytown, and Blue Ridge Summit at Hanover.

# Sports Roundup

### By HUGH FULLERTON, Jr.

New York, June 6 (AP)—There wasn't much doing along the fight beat, but Harry Markson, as usual, came up with the makings of a story. He sighed a bit because he couldn't beat the 20th Century club tom toms as he remarked: "I think that Ike Williams-Bob Montgomery fight in Philadelphia will be very important." . . . Someone cut in: "I saw them once and what a fight. With ten second to go, Montgomery finally belted Williams out as he fell through the ropes his head hung over the edge of the ring apron. Looking at him from the other side it really looked as if his head had been knocked off." . . . "My reason," Markson continued imperturbably, "is that for the first time in about 25 years there'll be undisputed champions in every division." A checkup showed he was right. From the time Mickey Walker abdicated in 1926 until Tony Zale cleaned things up in 1941, there always was an argument about the middleweight title. An argument over the featherweight crown began when Henry Armstrong dropped it in 1937 and didn't end until Willie Pep licked Sal Bartolo a year ago. The current lightweight disagreement began in 1943 after Sammy Angott retired and then changed his mind. . . . A bored scribe broke up the discussion: "So what?" he demanded. "Maybe before they fight Rocky Graziano will knock out Zale and what will the New York commission do then?"

### END OF THE LINE

The Cleveland Browns have sold almost twice as many season tickets as they did last year and figure on doubling their 1946 advance sale. . . . Ace Parker, who couldn't catch on as shortstop with the Chicago Cubs this spring, has been shifted to the outfield for the Portsmouth, Va., farm club. . . . George Blair, who gave the University of California crew a new shell while he was in the navy, returned this spring to row in the "George Blair" with the California Jayves this spring. . . . The national 100-mile motorcycle race will be staged on a rugged five-sided course on New Hampshire's Belknap mountain June 22. And if the riders aren't careful, they'll be copying the "sitzmarks" of Belknap skiers.

### Eastern League

### (By The Associated Press)

A new leader paced the Eastern league today as the Utica Blue Sox held top spot after winning eight in a row. The Sox, behind two-hit hurling of Lou Possehl, downed the Williamsport Tigers, 5-1, last night to dislodge the Wilkes-Barre Barons. The Barons faltered before Hartford, 5-3, and dropped a half-game behind Utica. Elsewhere in the loop, the Elmira Pioneers ended a five-game losing streak by beating Binghamton, 4-1, and the Albany Senators pounded out an 11-inning, 17-13 triumph over the Scranton Miners.

### SHIP PILOTS ON STRIKE

Pittsburgh, June 6 (AP)—Thirty-one masters, mates and pilots went on strike last night, tying up seven large river boats of the Dravo Corporation's Keystone division. W. H. Griffith, secretary of the Pittsburgh harbor of the AFL-Masters, Mates and Pilots union, said wage negotiations broke down. He predicted the walkout would halt coal shipments to Wharton, W. Va., and Steubenville, Ohio.

Batting, Marty Marion, Cardinals—Pulled game out of the fire by hitting a ninth-inning homer with two on against Boston Braves for 5-3 win.

Pitching, Harry Taylor, Dodgers—Rookie righthander won third straight, blanking Pirates with two hits, 3-0. His two previous victories were five-hitters.

# TAYLOR HURLS DODGERS INTO LEAGUE LEAD

### By JACK HAND

(Associated Press Sports Writer)

Freshman Harry Taylor, whose third straight pitching victory coincided with Brooklyn's arrival in first place, is hailed in Flatbush as the man who could pitch the Dodgers to the National league pennant.

Beaten in his first big league start at Cincinnati, May 13, Taylor did time in the bullpen, relieving five times before Manager Burt Shotton gave him another starting chance against the New York Giants.

Taylor humiliated the Giants' home run sluggers, 14-2, with a five-hitter and followed with another of the same against St. Louis, beating Harry Brecheen, an old Dodger jinx.

Fritz Ostermueller, who has taken particular delight in beating Brooklyn consistently since Branch Rickey tried to send him back to the minor leagues in 1944, was his opponent yesterday. Taylor turned in his best effort, a two-hit, 3-0 victory over Pittsburgh.

The win boosted the Brooks into the lead because the Giants and the Chicago Cubs, who had been tied for first place, split a doubleheader at the Polo Grounds.

After Paul Erickson of the Cubs had tamed the Giants with three hits in a 5-1 opening game, Mel Ott's giant slugged away at three Chicago throwers for an eight-run third inning to even matters with a 9-3 decision. Monty Kennedy, sent right back after being knocked out Wednesday, came through with his fifth win.

Cincinnati's Ewell Blackwell ran his victory total to seven by shutting out the Phillies, 5-0, with six hits, the Reds flattening Ken Raffensberger with a five-run first inning. Harry Gumbert's fine relief pitching enabled the Reds to take the second game, 6-3, for a clean sweep of the doubleheader in which Grady Hatten collected a total of six hits. Cincy hopped into fifth place on the day's work.

### Yanks Take Tigers

Marty Marion's homer with two on in the ninth enabled the St. Louis Cardinals to pull out a 5-3 decision over Boston's Johnny Sain. The Cards now are within three percentage points of the seventh-place Phils.

The New York Yankees continued to crush the American league leading Detroit Tigers, 7-0, on Spud Chandler's three-hit work. Three out of four over the Tigers left the Yanks only one game behind the Bengals.

Jesse Flores' three-hitter boosted Philadelphia's A's into a third-place tie with Boston and Cleveland on a 5-2 win over Chicago's Edgar Emith. Early Wynn of Washington shut out Cleveland, 3-0, with six hits in a game marred by an injury to Manager Lou Boudreau of the Tribe. Boudreau left the game with a side injury in the third inning.

Boston and St. Louis were not scheduled.

Lancaster, Pa., June 6 (AP)—More than 200 shooters are entered in the 12th annual Pennsylvania State Skeet championships which get under way here today. Contestants are entered from Pennsylvania, New York, New Jersey, Delaware, Maryland, Connecticut and some mid-western states in the three-day event.

John E. Waters, utilities secretary, estimated 75,000 shells would be fired—largest total in the history of the State Skeet Shooting association.

Philadelphia, June 6 (AP)—Dutch Schaffer of the Bronx swept to an easy victory in the feature Eastern States Sweepstakes Midget Auto race last night, churning the five-mile course in 5:40.22.

Tony Bonadies of the Bronx, was second, 10 lengths back. Bill Schindler of Freeport, L. I., captured third in the field of 12 with Harry Hart of Los Angeles, Johnny Ritter of Detroit and Larry Bloomer of Norristown, Pa., trailing.

Mexico City, June 6 (AP)—The Mexican baseball league announced that Max Lanier, former St. Louis Cardinals stellar southpaw, has agreed to return to the circuit with his old team, the Vera Cruz Blues, thus ending his long holdout. A brief league bulletin said "Lanier has accepted terms offered by the league, and will return to Mexico next week."

# ALLEN TOWN FAR AHEAD IN RACE

### (By The Associated Press)

That "never say die" spirit of the Allentown Cardinals threatened today to turn the 1947 Interstate league flag chase into a runaway.

The Redbirds made it a clean sweep on their three-game series with the Lancaster Red Roses by roaring from behind to score three runs in the last half of the ninth inning and record a 9-8 victory. With two outs and a man on first, Allentown put together a walk, a double and a single to sew up the contest.

The victory preserved Allentown's four and a half game lead over the Harrisburg Senators and set the stage for a series with the runnerup club beginning today. The Senators pounded out an 11-5 decision over Sunbury. Hagerstown swept its series with York, 8-4 and Trenton dropped its first game in its last eight starts, losing to Wilmington 5-2.

Trenton lost out on a 10th inning balk by Southpaw Roger Bowman, which was followed by a home run by Eddie Murphy. The game was marked by a series of squabbles in which the managers of both clubs were ejected.

Eddie Owar, Hagerstown's angular righthander, had an 8-0 shutout going into the ninth but weathered a four-run rally by the White Roses. The Senators broke up their game with Sunbury by driving home seven runs in a big eighth inning rally. Fred Wollpert went the route for Harrisburg, although battered for 12 hits.

Today's games: Allentown at Harrisburg, Lancaster at Sunbury, Wilmington at Hagerstown, and

## Today's Talk

ALLOW NO FIXED PERIOD!

There is a saying that it is never too late to mend (learn). I would modify that saying by remarking that it may be too late—and that is what each of us should bear in mind, and why we should keep on our toes, and try not to stub them! The late Dr. William Oslar, modifying an old proverb, said that "a man is sane morally at thirty, rich mentally at forty, wise spiritually at fifty—or never!" Our travelling years are our best years, and our minds, and our hearts, should be kept open and free to give entrance to every healthy and ennobling influence during our first and middle years. The later years are for meditation, reflection, and for the enjoyment of those experiences that have enriched us from birth.

None of us should allow ourselves to get riveted to routine, or to any fixed period. This is a day of specialities and experts. But we need hobbies, a variety of interests, and occasional occupations to keep enlarging our horizon and giving to us an increasing zest for life, and an enlarged desire for usefulness.

The habit of forever "talking shop" when away from one's work is one that should be shunned. We should hit the nail hard—while driving it, but not worry about whether it is going to stay in when driven. There are other things to follow that process. Home, children, play, books, travel—these are occupations that round out a balanced life.

I once read of a man "who loved difficulties just for the pleasure of making them disappear." Such a man could never see himself cemented to any fixed period. Such are the leaders and the inspirers of us all.

There is a doctor friend of mine with whom it is always a delight to be. He is a specialist, and a noted one at that, but his interests are so wide and varied that he is never a dull companion, but one who lifts and inspires me on every occasion of contact. He is not a fixed period to his life. He is alive, stimulating, and alert. He lives one day at a time—but each one is an event!

Tomorrow Mr. Adams will talk on the subject: "This Art of Living."

## Just Folks

By EDGAR A. GUEST  
The Poet of the People

**LITTLE THINGS**  
It's the little things that matter.  
Every time he had to roam  
He purchased pretty trinkets for  
the ones who stayed at home.  
They'd be something inexpensive  
he had noticed, that he bought.  
They'd but little market value, but  
were rich in loving thought.

He would stop at times for candy  
in the evening homeward bound.  
Not the largest box they offered;  
sometimes merely half a pound.  
But he gloried in surprises and joy  
of presents small—  
Just to prove to those who loved  
him he'd been thinking of them all.

It's the little things that matter;  
not the ones by which we're tasked.  
But the ones we think of doing  
without waiting to be asked.  
And his home knew that contentment  
which from love and courage springs  
And his family adored him, since  
he did the little things.

## SAYS UNCLE SAM OUTSTRIPS USSR IN MIDDLE EAST

By JERRY KORN

(AP Foreign Affairs Analyst)

The United States is swiftly outstripping both Russia and Britain in the one spot in the world where interests of the three big powers meet head-on—the middle east.

That area is extremely important to all three nations because of its great oil reserves and because of its strategic position astride the crossroads of the air, sea and land routes around the globe.

For many years the nations of the middle east have been among the most backward in the world. Now they are modernizing, with American assistance. And as the lot of people improves, the stock of the United States rises.

### In Saudi Arabia

Take Saudi Arabia, which contains much of the middle east's oil. A great development program is under way there which American officials say will change the country more in the next five years than it has changed in the last five centuries.

King Ibn Saud's own five-year plan will cost about \$100,000,000. A little of this is being furnished by American private and government sources. American oil companies have vast projects which will bring the total to more than \$400,000,000.

But Americans are furnishing something harder to find in the middle east than money: industrial knowledge.

### To Our Advantage

By the time the Saudi Arabian program is completed some 4,000 United States experts—largest American colony in the middle east—will be living in the country.

"It's to our advantage to see more wealth produced and that better distributed," one American official says. "The people will associate prosperity with the United States."

Officials say that British failure to recognize that fact in time is one reason why they lost their position of leadership.

Russia, these experts add, fumbled a chance to build up good will when it moved into Azerbaijan.

### Russians Stripped Region

Russia could have developed the country and used it as an example for the other Arab countries. Instead the Russians stripped the region bare, and their standing dropped so low in the middle east that even the Iranian intellectuals—who might normally have supported the communists—were soured on them.

The Arabs don't like American support of the Jewish position on holy land immigration, even with the problem in the hands of a United Nations commission.

The experts say the Arabs, like

## Auto 'Price' Bill Okayed By Senate

Harrisburg, June 6 (P)—A bill which one of its sponsors said is designed "to halt the sale of 'new' automobiles in excess of their list prices" went to the House Thurs. with Senate approval by a 41-9 vote.

The bill, drafted by the Justice department, would ban the sale of new or used automobiles in excess of the list prices fixed or suggested by the manufacturers. It was sponsored by Sens. H. Jerome Jaspur (D-Phila.) and Weldon B. Heyburn (R-Delaware).

Persons who sell a new automobile "purchased in good faith and not for the purpose of resale" would be exempt from provisions of the proposed law.

## Final Agreement At Campbell Soup

Philadelphia, June 6 (P)—A strike of 9,000 employees of the Campbell Soup company was averted by a 14.7 cent an hour wage increase in what an official described today as "one of the most difficult disputes" ever handled by federal conciliators.

The pact, signed shortly before midnight last night, came after 32 unsuccessful meetings among members of the union, the Food, Tobacco, Agricultural and Allied Workers (CIO) and the company.

Peter J. Manno, U. S. Conciliation Service commissioner in this area, said a threatened strike would have idled workers at the company's Chicago and Camden, N. J., plants and would have affected 3,000 farmers with millions of dollars worth of tomatoes.

"This is the highest wage package in the canning industry," Manno declared.

Johnstown, Pa., June 6 (P)—Willard Robson, 55, of Beaverdale, Otis Elevator Co. repairman, was electrocuted yesterday by contact with a live wire while working on an elevator at the Reese Electric Supply Co. here. The shock hurled him 12 or 14 feet to a lower floor of the building.

many other peoples, think of U. N. as being dominated by the United States.

### A Few Other Things

A few other things could trip the U. S. up. These are the most important:

1. If the Arabs decide the United States is taking an imperialistic course in Greece and Turkey, they might throw us out of their own countries to keep the same thing from happening there.

2. Like most nations which are tying their economies to that of the United States, the Arabs fear a major depression here. That might make them lose faith not only in the United States, but in the capitalistic system as well. It could drive them straight into Russia's arms.

John Ciampa (above), 26, Brooklyn, is in the lobby of the Hotel Astor, New York city, after police seized him when he climbed back into the hotel after putting on a 15-minute "human fly" show by clambering from ledge to ledge. He was arraigned on charges of endangering peace and health of other citizens.

## BY-PASS BRIDGE COST IS CITED

Altoona, Pa., June 6 (P)—Thomas S. Stephenson, publisher of the Pennsylvania Roadbuilder, declared last night that bills now before the state Legislature would necessitate erection of a "superbridge" across the Susquehanna River at Harrisburg at a cost of more than \$15,000,000.

Stephenson, who also is president of the Pennsylvania Home Rule association, spoke at a meeting of the Pagan Township Road Supervisors. The Taylor-Wade "By-Pass" bill, which has been passed by the Senate and is slated for final House action Tuesday, authorizes the state Highway Department to build a road approaching the Susquehanna from both sides, although no mention of a bridge is made, Stephenson said.

Loss To Counties  
He asserted condemnation of property for approaches to the bridge would "result in millions of dollars in damage claims" in addition to an estimated \$15,000,000 construction cost for the bridge.

"This bill gives the Department of Highways authority to spend the entire motor license fund if necessary," Stephenson said. "Rural townships in Pennsylvania would be deprived of their fair share of the gasoline tax to finance the expenditure."

## PLAN BROADER STEEL PROBE

Washington, June 6 (P)—A Senate small business subcommittee today winds up the first phase of its inquiry into the tight steel market and staff aides said they are planning a broader investigation.

The subcommittee, which for the past several weeks has been listening to the woes of small businessmen unsuccessful in their efforts to buy steel, called Willard F. Rockwell, as the day's first witness.

George F. Meredith, executive director of the subcommittee staff, said Rockwell wrote the group that he has been unable to obtain steel from the Jones and Laughlin Steel corporation, of Pittsburgh. Meredith quoted him as saying he was a long-time customer of the Otis Steel company, Cleveland, which Jones and Laughlin took over in 1942.

A. J. Hazlett, Jones and Laughlin vice president, told the subcommittee yesterday that Otis is making every effort to supply old customers, but he acknowledged that this is not always possible because the capacity of the mill has been reduced. Chairman Martin (R-Pa.) told a reporter the subcommittee will meet early next week to discuss the future course of the investigation. Meredith said the committee probably will require several months of additional hearings to get the full picture.

## Says U.S. Using Its Oil Capacity

Pittsburgh, June 6 (P)—Export of oil well drilling materials to foreign countries is helping to prevent the United States from building up oil reserve capacity for future emergencies, Walter S. Hallanan, chairman of the National Petroleum Council, told the Pennsylvania Grade Crude Oil Association last night.

Hallanan, who also heads the Plymouth Oil corporation, told the association's 23rd annual meeting that: "The valves of the oil industry are wide open. There is no reserve capacity to be called upon in the unhappy event of another emergency (war). We are up to our limit in production and demand still continues to increase."

He said that the industry had undertaken a record drilling program and even greater efforts would be made but for inability to obtain tubular and other material needed for drilling.

## Police Precautions Ordered In Strike

Pittsburgh, June 6 (P)—Police received orders today to guard against new violence in the five-day-old strike of freight drivers here as new peacekeeping efforts by Mayor David L. Lawrence ended in failure.

Police Superintendent Harvey J. Scott directed inspectors to step up vigilance and avert recurrence of a Wednesday fracas in which two non-union truckers were beaten.

About 2,500 AFL-Teamster freight drivers demand pay hikes of 35 cents an hour and the employers, the Western Pennsylvania Motor Carriers Association have countered with a proposal to up wages 15 cents. The drivers now are paid from \$1 an hour to \$1.15.

Yesterday both sides held a fruitless session in the office of Mayor Lawrence.

## BUS STRIKE AVERTED

Washington, Pa., June 6 (P)—Division 1063, AFL-Motor Coach employees, voted Wed. night to accept a 13-cent hourly wage increase, eliminating danger of a strike by 225 drivers and mechanics employed by the western division of the Blue Ridge buslines. The Blue Ridge offer was made May 17, just 15 minutes before a scheduled strike deadline.

Butler, Pa., June 6 (P)—Angered because once again it found the Butler county jail in "shocking condition," The June grand jury told Judge William B. Purvis: "Unless the recommendations of the grand jurors are recognized and followed as far as possible, it is useless for us, as citizens, to take our time to make such inspections."

The number of U. S. farms shrank from 6.4 million in 1920 to 5.8 million in 1945.

## TEACHING YOUR DOG TO "GO TO HEEL"

### Making Your Dog a Better Citizen

by Tom Farley

When the dog has mastered the "Rover Come" command it is necessary that he learn to move from the sitting position in front of the handler to the sitting position at his side. This is called the "Finish." The position, of course, has been taught as "Heel" in the three sitting positions. When the dog is sitting directly in front of you

as picture 1, give him the order "Heel" at the same time motioning backward with a sharp strong motion. At first it will be necessary for you to step back with the left foot, pulling the leash backward as in picture 2. As his tail is even with your right foot turn him inward as picture 3.

As the dog swings into the correct position make sure that he assumes the sitting position as taught, picture 4. After a while he will come into

position at the motion of the hand, picture 5, without a pull on the leash being necessary. The correct position is shown in picture 6.

This is the sixth of a series of picture articles on dog training featuring Frances Hartsook, nationally known trainer, photographed and prepared in a campaign to make dogs better citizens. The lessons must be studied from the beginning to be effective. If you miss any of the articles we suggest that you purchase the back issues so that you have the complete series. (P-D Photos).

# THE CLEAN-UP

By Joe Barry

AP Newsfeatures

Chapter 16  
Rush looked at her for a moment, a long moment, then let the car into gear and drove off.

"That has its advantages," he said. "Did he explain why he wanted me watched?"

"No, except that you were a stranger and a reporter. He wanted a line on what you were writing."

"In that case I'll have to write something right away so you can tell him about it. Look, Gay, you'd better not make up things about my writing to feed to Carney. He's liable to find out I'm not writing and he doesn't like people to fool him."

"No," said Gay as seriously as Rush, "he doesn't. What would you suggest that I tell him?"

"Tell him exactly what I do do. So far you haven't seen me do anything he wouldn't like. There may be a few things I'd want you to forget but I'll warn you about those."

"Okay," said Gay. "Now, if a girl isn't too forward, could she ask what you are doing here if you're not writing?"

"You can ask," said Rush after a moment's silence, "but I doubt if you'll find out. I'm not sure I want you to know yet."

"You're trying to run Sully and Carney and Gunn and Carver out of town. I don't know why, but darned if I don't think you are," Gay said. "Do you think you'll have to kill anyone else?"

"You mean Marr?" Rush grinned. "I didn't kill Mr. Marr. Somebody did me that favor. One more favor like that and my job'd be almost done."

"I'll see if I can't arrange it," said Gay. "Then maybe you could spend a little time with me without your mind being a couple blocks away."

Rush grinned and kissed her very quickly, dropped her off, then he left without another word.

The fact that Carney had set Gay to watching him was interesting. It needed thought. Only half consciously he turned left in the direction of Sully's house. The chances were good that Carney held high suspicions of him.

He made a turn to the right and drove three blocks slowing and parking fifty feet from the intersection in the shadows of a mammoth elm. Sully's house was a hundred feet north of the same intersection. Now might be the time to cast another stone in the troubled waters. He got out of the car and walked across the street to the shelter of bushes that edged the sidewalk around Sully's house. There was a light in the lower front room and he wanted a look inside before he made any move.

He made a cautious survey of the terrain and found it vacant. He took one step toward the house then halted and faded back into the bushes. A car whirled around the corner on two wheels and drew up with screaming brakes in front of Sully's house.

The door of the house flew open and Sully came running down the steps throwing a topcoat around his shoulders. He got to the sidewalk and halfway across the parking when the silence fell apart in a sudden thunder of gunfire. From the open window of the car spits of flame shot at Sully. He stopped dead still for a moment, put out a hand toward the car, took a half step and fell. An arm reached out of the car and pumped two more shots into his body. Then the car roared away from the curb.

Rush didn't wait a second. Already lights were coming on in the neighborhood and doors were flying open. He turned on his heel and ran full tilt to his rented car.

In a matter of seconds he was a block away. He drove fast for another block or two then slowed his pace to a respectable speed and finding no one in pursuit turned back toward town. He garaged the car in the hotel garage and went directly to his room. There he speedily undressed and got into bed.

Sleep was not easy to woo, nor did he try very hard. There was too much on his mind. When he finally relaxed it was with the conviction that somebody else was operating in Forge City with the same end as his in view. Operating, not for the same reason, but to the same end. He couldn't see Carney in the role, he was too smart and had too much to lose. His last thought before drifting to sleep was that it would be ironic indeed if his mythical Chicago gangsters had come to life and were truly trying to take over the town. It was logical enough. Forge City would be a neat plum, and ripe for the picking, of the big city trouble boys.

Chapter 17

When he awoke in the morning Smoky was sitting in his easy chair with a cigarette in his hand.

"Damn it," said Rush, "I wish you guys would stop picking my door lock, especially when I'm home."

"Do you want me to wake up the whole floor? I knocked twice but you were asleep and didn't hear me so I just eased in."

Rush got up and washed. He was busy shaving and Smoky came to stand in the door.

"Read the papers yet?" he asked.

"In my sleep?" asked Rush.

"You should. There's news."

"What's happened now? Did Sully get shot?"

"You guessing or do you know?"

"Guessing," said Rush shortly.

"Did he?"

"Yeah, right in front of his house last night about two. Wife's statement says he got a phone call that his joint was burning down and that someone would pick him up. He ran out and somebody gunned him and drove away."

"Is that all they've got?"

"According to the papers that's all. I've got a cop I buy a drink for now and then. He says headquarters is a madhouse. These two shootings are the only crime they've had in this town in ten years and nobody knows what to do. They got cobsels on all their investigation equipment. He's not even sure that anybody down there knows how to check ballistics. They may have to call in somebody to check Sully's slugs with Marr's."

"That'll be a nice item for the papers. The voters'll love it."

"Won't they. What are you going to do about it?"

"About what, the killings? Nothing. They're not my business."

"Got an alibi?"

Rush turned slowly till he was facing Smoky.

"Do I need one?"

"Not with me, chummy. But you might with the law. You'd be a neat way out of your troubles if they could stick them on you."

Rush looked at him for a minute then slowly grinned. "I was there. In the bushes. I saw who-ever it was let him have it."

"No! But don't let it get you down. Twist or I will alibi you if you need it. Just let us know."

"I'll think up a good one and set it with you. Call me or have Robin call me in an hour. And I want all you guys up here tonight at ten. I've got a deal cooking and I'll need some help."

Smoky was gone as silently as he had come. Rush dressed slowly and lit a contemplative cigarette. Smoky had pointed a finger at a point he had overlooked. He didn't have an alibi for Marr's death either. It had happened while he was on his way to pick up Gay. Somebody else might pick it up and make something of it.

His phone rang and he picked it up. The voice was slightly muffled as though intentionally disguised.

"Mr. Henry?" it asked.

"Speaking," said Rush.

"This is X. Do you know to whom I refer?"

"If you know a man named Leach in Chicago, I do."

"I know him. He offered you ten thousand dollars to do a job for me."

"I know you," said Rush. "I didn't expect to hear from you though."

"I didn't expect to have to call. However, your methods force me to get in touch with you."

"My methods?"

"The killing of Marr and Sully. I realized when I hired you that I was asking for violence but I didn't expect outright murder."

"Do I understand that you think I killed Marr and Sully?"

"I do. And it's got to stop."

"You're wrong and I doubt if it will. You don't have enough money."

Mr. X, whoever you are, you don't have enough money if your name turns out to be Rockefeller to hire me to kill anybody. Let's get that straight right now. Whoever is shooting up your citizens is doing me a favor, it makes my job that much easier, but it isn't me."

"I didn't expect you to admit it. However, it must stop. If it doesn't I'll be forced to place what information I have in the hands of the police."

"Just what information do you have, Mr. X?" asked Rush.

"I'm fully aware of the fact that you have no alibi for either murder. Also the police will be interested to know that you were hired to clean up this town."

"You amaze me, X," said Rush. "I have alibis, very good ones. And while I'm at it let's clear up another point. I'm going to clean up your city. I'm going to do it my way. When I'm through I'm going to

Those guys had it coming. They earned it years ago. If it'll make you feel better I'll dig around and find out who did kill them and throw it in with the original price. I like to give full value. Now, goodbye, Mr. X. It's been a pleasure meeting you."

Rush hung up. He smiled at the telephone. It gave him a very nice feeling to have hung up on X since he was quite sure that X had intended to hang up on him.

FLU VACCINE

IS DISCOVERED

Philadelphia, June 6 (AP)—A new vaccine capable of preventing influenza epidemics such as those that took 15,000,000 lives after World War One has been announced by Dr. Wendell M. Stanley of the Rockefeller Institute for Medical Research at Princeton, N. J.

Dr. Stanley, 1946 Nobel prize winner in chemistry, disclosed development of the new vaccine in a lecture before the Philadelphia section of the American chemical society last night.

He said that the highly purified vaccine, prepared by a process developed under his direction and available without charge to all manufacturers of biochemical products, is "set apart" in that it causes no unfavorable reactions.

All four types of influenza vaccine now on the market have proved effective in mass vaccination of 120,000 employees of a large industrial organization, said Dr. Stanley, but he added that three have been found to contain impurities which cause chills, fevers and body aches.

The newly announced vaccine has no such reaction, he stated, adding it was produced by centrifuging, which is whirling at high speeds.

Some authorities believing influenza to operate in a 30-year cycle, expect the next epidemic period to occur in 1948.

# SCOTLAND YARD FINDS 9 MORE BOMB LETTERS

London, June 6 (AP)—Scotland Yard reported today that nine new letter bombs for Britons had been found in the mails, making a total of 20 discovered since early this week.

Reliable sources said that all 20 of the "murder by mail" letters had been posted in Turin, Italy. Dispatches from Jerusalem, meanwhile, said the so-called Stern gang, Palestine Jewish underground group, had announced that its European branch has been sending the bombs.

Scotland Yard said some of the new bombs were addressed to former cabinet ministers, but refused to name any of them or to say whether Churchill was among them. A Churchill spokesman said the ex-prime minister had no knowledge of any bombs having been sent him.

Exploded in Tests

Foreign Secretary Ernest Bevin and his predecessor, Anthony Eden, were among those to whom the earlier dynamite-laden envelopes were mailed. None of the bombs has been exploded, except in police tests which have shown them powerful enough to maim or kill a man.

Officials said the latest letters were brought across the English Channel by steamer late last night.

Post office employees, scrutinizing mail from the continent, found them in a single mail bag. Home office explosives experts and Scotland Yard criminal investigation agents removed them and examined them for further clues to the senders.

The new bombs, it was disclosed, came in slightly larger envelopes than those detected earlier. This confirmed Scotland Yard's belief that the bomb senders would disguise their deadly missives in new ways in an effort to foil rigid security checks now being made with descriptions of the original packets as a guide.

# Says Labor Bill Will Pass Today

Washington, June 6 (AP)—Senator Taft (R-Ohio), said today he expects final Congressional approval of the union-curling labor bill by nightfall despite another critical barrage planned by a group of Democrats.

Taft also stood pat on his prediction that the bill will become law even if President Truman vetoes it. That means the Ohio senator is confident the Senate will muster at least a two-thirds majority on passage and maintain the margin on a veto test, if it comes.

House Republican leaders have no doubt their chamber can overcome any Presidential dissent. The House passed the compromise bill by a vote of 320 to 79, better than four to one.

Taft, chairman of the Senate labor committee, had expected to get a final vote yesterday, but he abandoned hope when foes of the bill insisted on making lengthy speeches against it.

Continued from Page 1

For the 924 acres in the nine farms \$79,500 was spent of which \$46,680 represents the mortgage. An average of \$86.03 was spent per acre leaving a debt of \$50.52 per acre. In nine of the farms the mortgage was under 50 per cent. For the 793 acres included in the farms \$76,000 was spent, and the mortgage amount was \$33,400. With the average price per acre being \$95.83, the amount owed is \$42.12.

**Prices Higher Here**

The chart for the Adams county farm prices shows prices here remain still much higher than the average for Pennsylvania and for the United States as a whole. While fruit farms cause much of the disproportionate pricing, the fact that the county is close to Washington and other centers where prices are much higher than the national average also is a factor in the higher Adams county prices, it was explained.

At the end of 1946 the charts show that Adams county farms, using the prices for the year 1936 as 100, are up to 218. The U. S. average is 170 and Pennsylvania 160. Pennsylvania and Adams county prices have shown a tendency to level off during the first part of 1947, the graphs also disclose.

Farm real estate prices in the fourth quarter of 1941 averaged \$36 per acre and since then, with minor

## Argentine President Peron Is Confronted By New Opposition At Home

### POLICY TOWARD U.S. IS BLAMED FOR ATTACKS

By LAWRENCE F. STUNTZ

Buenos Aires, June 6 (AP)—President Juan D. Peron was confronted today by new opposition at home, apparently because of policies he adopted to restore friendly relations between Argentina and the United States.

An unidentified voice mysteriously broke into a nationwide presidential broadcast last night with the shout: "Death to Peron," and there were indications that the interrupter was an extreme Argentina nationalist affronted by the resignation Wednesday of Federal Police Chief Juan Filomeno Velazco.

Velazco's resignation, under circumstances strongly suggesting that he had been dismissed on Peron's order, previously had been interpreted as a measure designed to cement friendship between Argentina and the United States. Velazco was known as a leader of extreme Argentina nationalists who had expressed Axis sympathies during the war.

#### Speech Cut Off Air

Peron was speaking at a farewell celebration for his wife, Eva Duarte Peron, who is heading for a tour of Europe, when his speech was cut off and an unidentified voice said:

"Very good, General. We here denounce those who proclaim themselves supporters of a false social justice. We call upon Argentines."

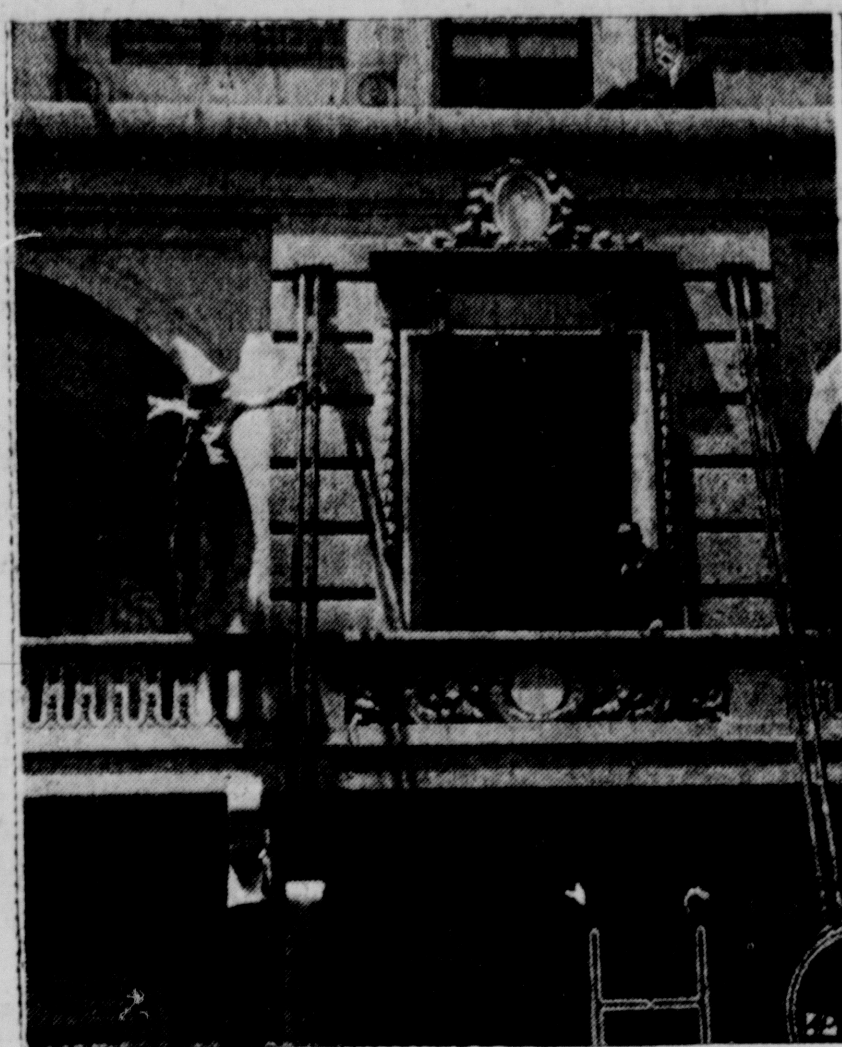

"Workers: We are the same who on other occasions watched over Argentine dignity."

"We return to say what the people want to know and what the cynical Peron does not want to know. Death to Peron! Peron, Peron, Peron—death!"

#### See Nationalist Link

The phrase "watched over Argentine dignity" was taken by many to be an identification of the speaker with the Argentine Nationalist cause, since the Nationalists made a fetish of "Argentine dignity" in maintaining neutrality during the war and even of siding with the Axis.

The interruption was followed by several sharp reports, a brief, loud burst of music, five minutes of sil-

ence and then more music.

Police rushed to the radio Belgrano building, but left without making any arrests. The Argentine news agency said authorities were considering the theory that a clandestine transmitter using the same frequency as the Belgrano transmitter had broken into the Peron broadcast.

#### Suspend Station

The government ordered the Belgrano station suspended "until investigation shows the origin and responsibility for this grave irregularity."

The incident followed by only a few hours the announcement in Washington of the resignation of U. S. Ambassador George C. Messersmith. President Truman said Messersmith's mission — to restore

friendship between the United States and Argentina — had been accomplished.

Assistant Secretary of State Spruille Braden, former ambassador here, resigned the previous day. He had been an advocate of a "get tough" policy toward this country.

Argentine officials maintained silence on Messersmith's resignation but left no doubt that they were sorry to see him go. Newspapers said the resignation was "lamentable and strange."

Altoona, Pa., June 6 (AP)—Officials of the Air Force association announced that their national president, Gen. Jimmy Doolittle, famed for the Tokyo bomber raid of 1942, will be a guest at an AFA air show here July 5 and 6.

### SPECULATE ON NEXT MOVES IN BALKANS' CRISIS

By EDWARD E. BOMAR

Washington, June 6 (AP)—Diplomatic authorities speculated today whether the Communist coup in Hungary may be followed by steps to set up a Balkan federation of Soviet-dominated states in eastern and southern Europe.

Until last week, Hungary's non-Communist government was the sole break in an otherwise solid lineup of Moscow-controlled nations extending from the Baltic to the Adriatic seas.

Marshal Tito of Yugoslavia has been an outspoken advocate of a formal Balkan federation, and such a development now is being viewed here as a definite possibility.

Like the Hungarian overturn, it would be regarded as (1) a curt Moscow rejoinder to the American program of aid to Greece and Turkey and (2) a move to solidify the Soviet bloc before final ratification of the satellite peace treaties forces withdrawal of Red army occupation forces.

Diplomats also consider as a possible next Russian step in eastern Europe some action to perpetuate the Communist domination of Czechoslovakia. A leftist bloc which included Communists won last year's election there, but a more recent rightist trend has suggested that the Communists might slip back into second or third place in the next national balloting.

Meanwhile, a formal United States protest and further economic slaps remained under consideration at the State Department to express this government's concern over the Communist seizure of control in Hungary.

That country's minister to Washington, Aladar Szegedy-Maszak, used undiplomatic terms to denounce "the Soviets and their agents" in announcing yesterday that he and most of his staff will not "recognize" the new Budapest regime. Both the minister and 23-year-old Francis Nagy, Jr., legation attache and son of the ousted prime minister, defied an order to return to Budapest for "consultation."

### Seaplane Crashes And Fires Four Houses

Pittsburgh, June 6 (AP)—A light seaplane, struggling to take off from the Ohio river, crashed into a north-side residence yesterday, killing two men and a woman in the craft and setting four homes afire.

The gaily-painted red and cream plane taxied off from Buck's seaplane base at the foot of Pennsylvania avenue. Ten minutes later it stalled and plunged nose-first through the roof of a Page street house. A burst of flame was followed by an explosion.

Fire from the plane spread

quickly to nearby buildings.

Killed were William G. Check, 30, pilot, and his wife, Naomi, 25, of nearby Craftin, and Jack Kubanek of suburban Squirrel Hill. The men, partners in a seaplane base at Conneaut Lake, Pa., were in Pittsburgh on business.

#### FRENCH CREEK DROPS

Meadville, Pa., June 6 (AP)—French creek today was dropping back to its normal level, eliminating danger of more floods from recent heavy rains. Residents who had evacuated their homes in fear that they would be flooded were preparing to move back

in. Authorities said it might be several days before flood damages were estimated.

It is believed that iron was known in Egypt before 2800 B. C. Boston is the fifth largest city in the United States.

### SWITCH TO AN AUTOMATIC GAS WATER HEATER

An automatic Gas water heater assures you all the hot water you need, at the exact temperature you want—without a moment's attention from you. Winter and Summer it's your thriftiest, most convenient source of hot water. Low in initial cost, a modern Gas water heater operates so efficiently and economically that it soon pays for itself. See your Gas Appliance Dealer or ask your Gas Company Office about installing a modern Gas water heater in your home.

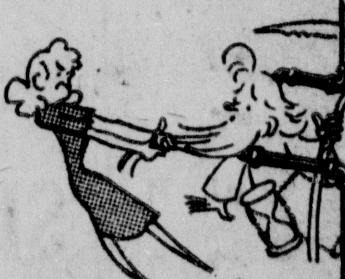

#### Around Your Pocketbook?

Furnace coil hot water can be very expensive. It takes 20% more coal to heat your home if the efficiency of your furnace is reduced by a furnace coil to provide hot water.

#### Around Your Convenience?

You can never be certain, with a furnace coil, whether the water will be scalding, rapid or cold. A roaring fire fills your hot water pipes with live steam. If the fire goes out there is no hot water at all.

#### Around Hours of Your Time?

You have extra furnace tending with a furnace-coil. You must fire up to keep your house warm and then work overtime to keep a hot water supply available for washing, bathing and household chores.

#### Around Your Whole Year?

During warm months, when the furnace is out, you must depend on some other water heating method—usually an antiquated, bothersome "bucket-a-day" coal pot stove. So, your summers, too, are filled with furnace tending, coal heaving, ashes and drudgery.

## JACK-IN-BOX SHOTS MEN FROM PLANE

By HOWARD W. BLAKESLEE  
(AP Science Editor)

Atlantic City, June 6 (AP)—A human jack-in-the-box, at Wright Field, Ohio, that has shot 88 men safely up 50 to 60 feet in less than a second was described to the Aero Medical Association Thursday.

The contrivance is an ejector, now about perfected, to throw men out of planes doing 600 miles an hour, tossing them so high that the plane's tail will not hit them when they bail out. Actually this ejector is a cannon five feet long, firing a 37-millimeter shell.

The cannon shoots out a heavy rod instead of a projectile, and the rod is fastened to the back of the pilot's seat. Seat, pilot, and whatever he needs for survival all shoot out in one tight bunch.

### Amazingly Easy

The shots and their effects on human beings were described by Lt. W. H. Ames, Dr. H. M. Sweeney, and Dr. H. E. Snively of the Aero Medical laboratory at Wright Field.

Though this is the nearest thing yet to shooting a man out of a gun, the experience is amazingly easy, to hear Lt. Ames tell the story. In one shot he accidentally had a lighted cigarette in his mouth. As he rose with a tremendous acceleration equal to many times gravitation, the cigarette tipped down almost to his chin, due to gravitational pull. But it righted and finished the shot in his mouth, without even the ash being knocked off.

Whether human beings could stand being shot from a plane without having bones crushed or other vital harm was unknown until within the past year. The Germans satirized gun-ejector plans but did not finish.

### No Black-out

The pilot in the present jack-in-the-box sits at ease. His forearms rest on arms of his chair. When the gun shoots, these forearms take on momentarily about 20 per cent of his weight. He does not have to press with his arms. The added gravitational pull does that automatically. This 20 per cent takes that much strain off his spine, and helps make it possible for a man to stand the big bump safely.

If a man's head happens to be slightly forward of his gravitational center, the shot causes head and shoulders to bend down almost to the lap. Lt. Ames said the sight is alarming. But this bend hasn't done any harm.

Two lines attached to the pilot's belt and to his chair respectively cock two guns as he is shot out. In a few seconds the chair gun fires and automatically frees the man from the chair harness. In real ejections in the air the pilot has had to push the chair away from him as both hurtle along together, but this push is easy. The other gun releases the escaping pilot's parachute. This gun is set so that it fires by altitude and won't open the chute until the man falls low enough to have sufficient air to keep alive. It won't shoot, for example, at 40,000 feet.

There is no black-out in any of

## Seek Links Between Trunk, Drum Murders

Philadelphia, June 6 (AP)—Similarity between the still unsolved Keyport, N. J., trunk murder and the finding of a slain woman's body in a metal drum here has Philadelphia and New Jersey police checking thoroughly for possible links.

An unidentified woman, apparently strangled with a dog leash, was found on a New Jersey highway April 19.

A newspaper dated May 7 was found wrapped around the body of a middle-aged woman, also unidentified, found in the metal drum here Monday. She was strangled before being placed in the drum, a coroner's autopsy found.

New Jersey State Police Cpl. Frank P. Long and Monmouth county Detective John Gawler conferred yesterday with Lieut. James A. Kelly of the Philadelphia police homicide squad but had no statement at the conclusion of the meeting.

### LEGISLATIVE TALE

Springfield, Ill., (AP)—All activity in the Illinois House of Representatives was stalled during a five-day filibuster which ended yesterday.

Then the House started trying to catch up with clogged work sheets. One of the first acts by House members was to kill a bill making it unlawful to cut the tissue or muscle of a horse's tail to alter the animal's natural carriage, unless authorized by a veterinarian.

## APPLE SPRAY LETTER OUT

Apple spray letter number six was sent out by the Adams county extension office Wednesday to aid fruit growers in the battle against the codling moth and diseases.

Designated as the second cover spray the current spray is to control codling moth, chewing insects and white apple leaf hopper. The spray is also to prevent apple scab, Brook's spot and black rot.

The insect situation as outlined in the letter shows that the codling moth adults are "out in large numbers and plenty of eggs are being deposited and are hatching." This spray is most important, according to the letter, in preventing worms from entering the fruits.

### Need Best Coverage

The light crop of apples in many orchards will require the very best coverage possible to protect the fruits from insect damage, Adams County Farm Agent M. T. Hartman said. Overwintering white apple leaf-hopper eggs are all hatched and the nymphs on the undersides of the leaves should be killed now to prevent future generations.

In regard to disease conditions, Hartman said, apple scab has been found on the leaves in many orchards. The scab spreads rapidly in

showery weather and sulphur will prevent serious leaf and fruit infection.

The spray, which should be applied immediately includes wettable sulphur at manufacturer's directions, three pounds of lead arsenate, three pounds of fresh spray lime and one pint of nicotine sulphur or two pounds of dry concentrate or one pound of 50 per cent DDT wettable powder to each 100 gallons of spray used.

Growers using phenothiazine-lead or DDT programs were advised to include six pounds of flotation sulphur paste or four pounds of wettable sulphur in the spray to protect new growth from scab infection.

The spray letter was completed after a survey of county orchards by County Agent Hartman, J. O. Pepper, extension entomologist, and L. O. Weaver, extension pathologist.

In colonial days a New England farm boy often had sheep set aside for him for wool for his suits.

## HOLD HUSBAND IN WIFE'S SHOOTING

Lansdale, Pa., June 6 (AP)—A 45-year-old woman lay in Elm Terrace hospital today, critically wounded by three bullets pumped into her as she walked in front of a church.

Her estranged husband, Abijah J. Stephens, was arrested and held for questioning but Police Sgt. George O'Donnell said no formal charges have been filed.

O'Donnell quoted the woman as saying "he was close enough to kiss me when he started shooting. He has been trying to get rid of me."

For financial growth, the best way is to plant dollars in an account at this bank. Then deposit regularly, and, after a time, you will find you have come a long way from what may have been a modest start. "Keep it growing" is a motto of the good gardener. It applies with equal fitness to your savings account.
